

Marie-Lore Buidin (BE)

Marie-Lore Buidin (18-02-1958) physiotherapist and L.Ac studied acupuncture in Belgium at the Jing Ming acupuncture college (1999-2002) with internship in China (Nanjing). She also trained with Master Li Ruheng (Nanjing) in Tai Chi Chuan Yang Style and Tai Ji Jian.

She has specialized herself in treating cardiovascular disease, pulmonary disease and psycho-emotional issues with acupuncture, in which she has more than 16 years of advanced knowledge and specific clinical experience.

Since 2012 she is teaching her own courses in Cardio-acupuncture, Emergency-acupuncture, Emotion and the Heart and Taoistic approach of emotional problems in the Netherlands, Zürich, Boston, Hartford, Victoria Canada and Belgium.

Resume

Cardiovascular Disease (CVD) remains the leading cause of death worldwide. The urgency to treat CVD holistically can no longer be ignored. This state-of-the-art course offers an integrated approach to treat CVD most efficiently and with excellent results. Beyond a decade in private western cardiology and acupuncture practice, Marie-Lore Buidin, has created this 2-day journey through the heart to review Western anatomy, physiology and pathology, to discuss Western treatments, and to delve thoroughly into TCM pathology, diagnosis and treatment options. Beside the physical, energetic and emotional aspects of heart disease, she also offers a stable theoretical frame which includes guidelines for safe treatment of cardiovascular disease with acupuncture. Numerous case discussions, Scientific paper discussion, clinical results and measurements will highlight the power of acupuncture for each specific heart condition.

Learning objectives:

- * Develop TCM expertise for cardiovascular disease*
- * Learn to evaluate, apply and integrate TCM knowledge into Western medical paradigms.*
- * Be able to identify "red flags" in cardiovascular disease and apply patient safety*
- * Learn to apply practical knowledge and efficient acupuncture treatment plans for CVD*
- * Understand how to communicate and collaborate in the integrative treatment of CVD*

Day 1:

Morning: Introduction, coronary artery disease, Heart failure, valve disorders

Afternoon: Hypertension.

Day 2:

Morning: Rhythm disorders

Afternoon: Emotion and the Heart
